

Hello, Nate.

My name is Sam and I have a very interesting and intriguing offer for you. Please, read it to the end.

Who are we?

DiaVita Club is a platform for growing qualified partners who promote **DiaVita** products.

DiaVita Club consists of a forum with a huge amount of information where future partners will share and learn the content. This is the fastest and most effective way of online learning.

Also there is the school divided into levels. The task of each level is to train the partner to earn money in MLM as quickly as possible while playing. The information is constantly updated and filled up.

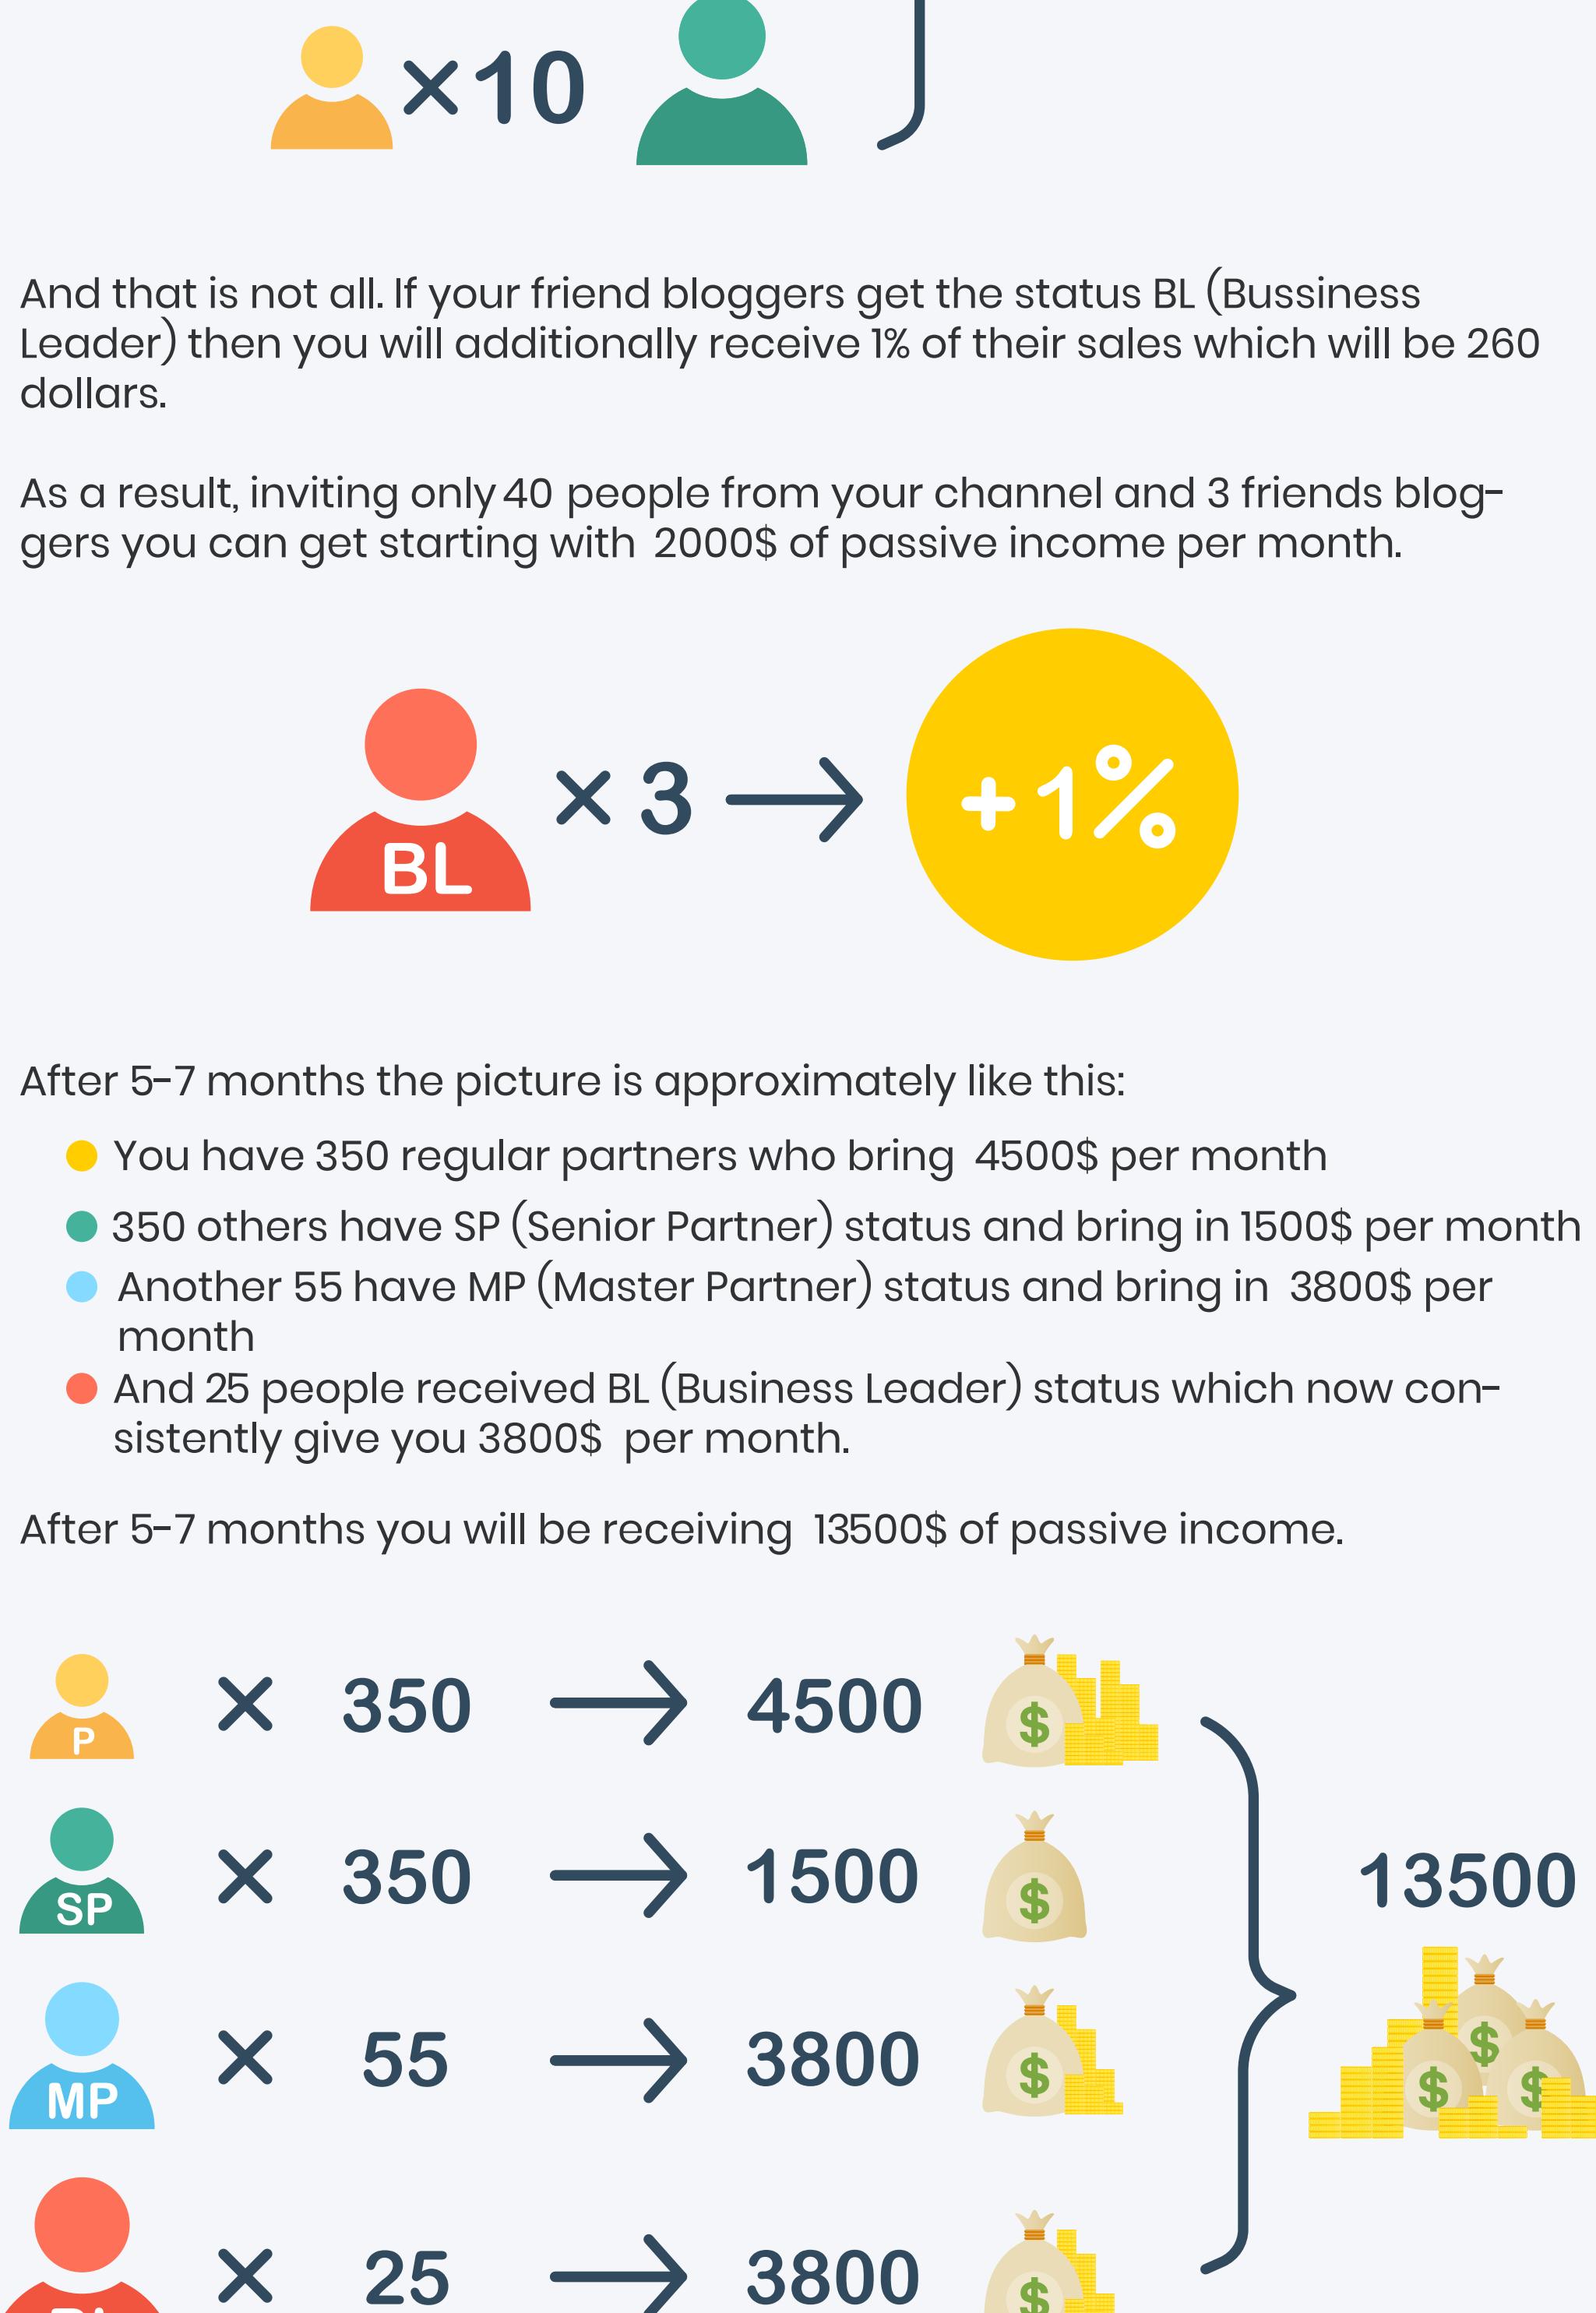

There is a training center which also deals with teaching and explaining the very core of the work.

All information is free and this entire information is aimed at future partners quick learning.

Why choose DiaVita Club?

Only our network has a full-fledged forum with a huge amount of unique content, a full-fledged school and a training center.

At the moment training sessions shootings and content for the club and cartoons (aimed to create a viral effect) productions are going.

DiaVita Club grows fast enough and expands. In 2 months it will be in Vietnam and in another 1.5 month in Italy.

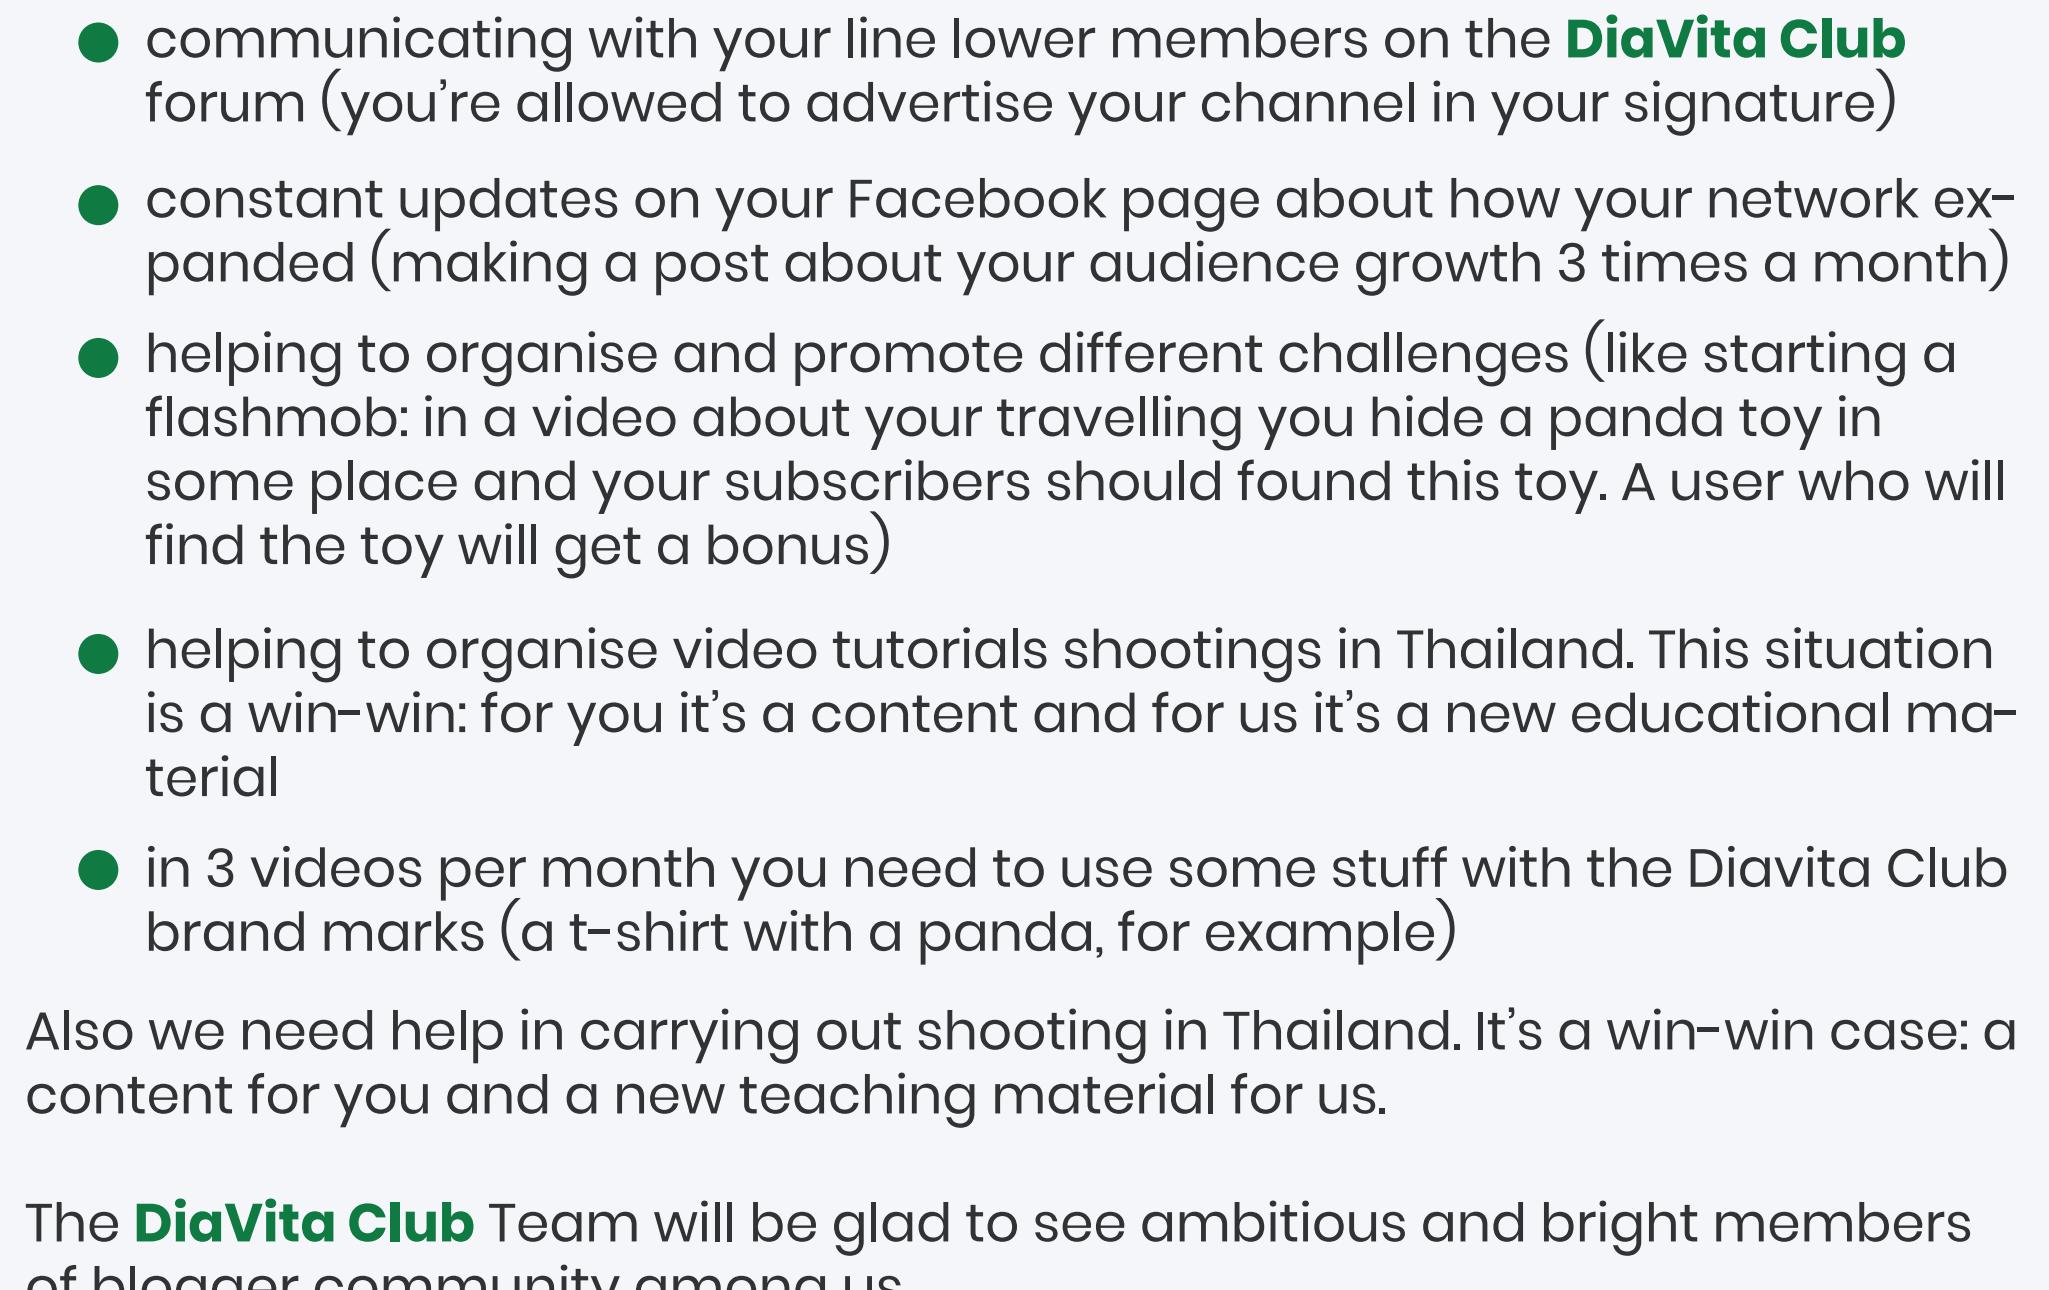

This network will be developing simply using the brand in 1 or 1.5 years. First of all we are aimed at promoting the club brand. And sales will be formed after. We are building the brand which will work for you and I.

What are we offering?

We offer you to create your own line of partners. Consisting from your subscribers and friends-bloggers. We need you to promote the **DiaVita Club** not **DiaVita** goods. After all we both are interested in having salespeople who will constantly generate passive income than just buyers who will once purchase the product and then forget about the offer.

We are directly interested in growing and it will be profitable for you to attract bloggers to increase your income. Plus, you don't need to advertise the product itself. You only promote the Club in which people log in, train and start earning. And while earning they bring you income.

Plus, you invited 3 of your friends to your line and they also have only 10 people in their line. These sales will bring you 750\$. As you can see, it is more profitable to invite bloggers than partners from the channel.

And that is not all. If your friend bloggers get the status BL (Business Leader) then you will additionally receive 1% of their sales which will be 260 dollars.

As a result, inviting only 40 people from your channel and 3 friends bloggers you can get starting with 2000\$ of passive income per month.

After 5-7 months the picture is approximately like this:

- You have 350 regular partners who bring 4500\$ per month
- 350 others have SP (Senior Partner) status and bring in 1500\$ per month
- Another 55 have MP (Master Partner) status and bring 3800\$ per month
- And 25 people received BL (Business Leader) status which now consistently give you 3800\$ per month.

After 5-7 months you will be receiving 13500\$ of passive income.

In a year if properly promoting the **DiaVita Club** your earnings will be like:

- You have 700 regular partners who bring 11400\$ per month
- 60 others have SP status and bring in 3800\$ per month
- Another 85 have MP status and bring 8200\$ a month
- And 50 people received BL status which now consistently give you 7000\$ a month.

So in a year you will earn 30500\$ of passive income.

In addition if the members of your line will build their own lines and receive new statuses your earnings will also grow essentially due to their turnover.

Considering the size of covered audience and your opportunity to invite friends-bloggers into this network you will quickly achieve these results.

More than 20 people are working for quick training and development of partners in the **DiaVita Club**. They produce content, make lessons, write software solutions and are shoot videos for the Diavita Club training center. In other words you invite people to the Diavita Club and then the school, training center and forum teach them and stimulate to grow and find new partners.

We are willing to offer a 7000\$ salary per month until you will earn similar amount from your partners.

What do we want?

We don't need you to sell **DiaVita** products through your channel. These are unreasonable reputational risks and can affect audience's loyalty very badly. We all will benefit from your channel developing and maintaining a positive subscribers attitude.

We need you to actively participate in the **DiaVita Club** brand promotion thereby developing your own line. The process of inviting partners into a line consists of several stages:

- inviting your own subscribers
- inviting other bloggers in a line who will create their own lines under yours thereby bringing you income.
- not less than 5 videos per month about the **DiaVita Club** on your channel in a separate section
- if required you need to attend offline meetings of the **DiaVita Club** and then make videos about them
- streaming for your line lower members (not less than 3 times a month)
- communicating with your line lower members on the **DiaVita Club** forum (you're allowed to advertise your channel in your signature)
- constant updates on your Facebook page about how your network expanded (making a post about your audience growth 3 times a month)
- helping to organise and promote different challenges (like starting a flashmob: in a video about your travelling you hide a panda toy in some place and your subscribers should find this toy. A user who will find the toy will get a bonus)
- helping to organise video tutorials shootings in Thailand. This situation is a win-win: for you it's a content and for us it's a new educational material
- in 3 videos per month you need to use some stuff with the Diavita Club brand marks (a t-shirt with a panda, for example)

Also we need help in carrying out shooting in Thailand. It's a win-win case: a content for you and a new teaching material for us.

The **DiaVita Club** Team will be glad to see ambitious and bright members of blogger community among us.

Looking forward to hearing from you.
Best regards, Sam.
